This is a piece of the original cave where Jesus' tomb had been carved. In 326 AD Constantine began to cut away the stone to form a rock cut tomb shaped out of the bedrock. This small piece of the stone carving is from the base on the back side of the rock cut tomb.

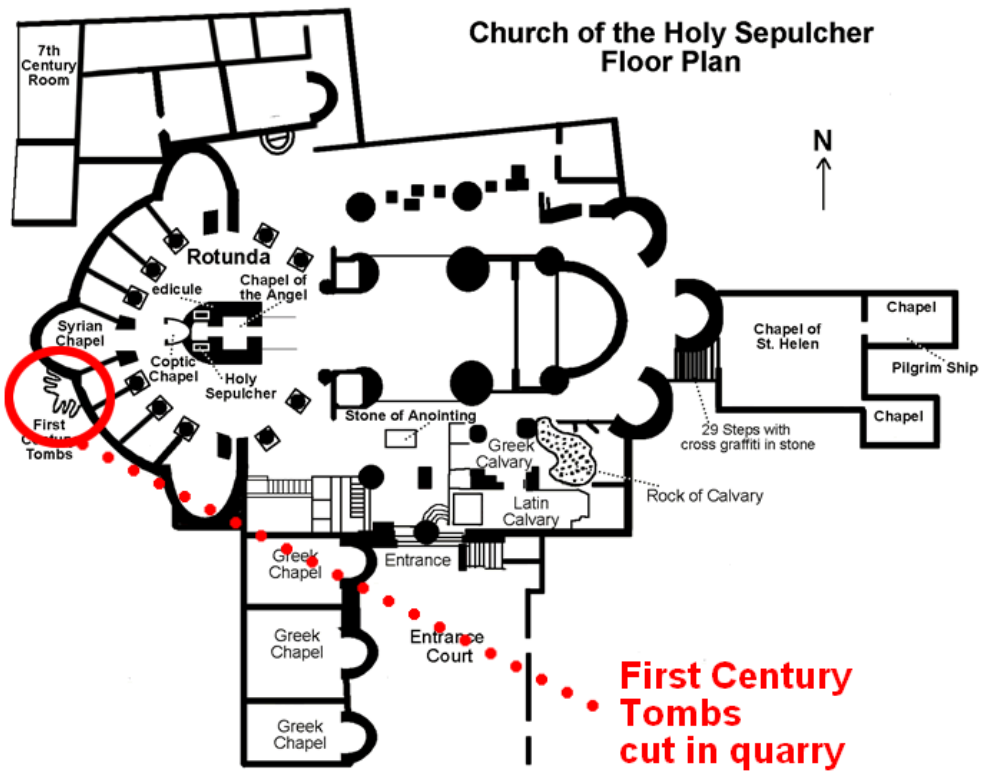

Tombs from the first century, or the time of Christ, located in the back of the Church of the Holy Sepulcher that were cut into the same quarry as the tomb of Joseph of Arimathea that was used for Jesus. These tombs are Kokhim, or Loculi, tombs that were long narrow shafts cut into stone where the corpse was placed and closed with a stone slab.
